

Why I am interested to work with Bangladesh Honda Limited

I have worked in different sectors in different companies, Now I have been with Nitol Motors Ltd(TATA Division) for the last 8 years, Throughout my Professional Career, I have experienced different Policies, Beliefs, Management ,Principles under different companies. But the Fundamental beliefs, Management policies, company principles of Bangladesh Honda Limited are incomparable to those of other companies. The fundamental beliefs (initiative, equality and trust) are the most important things that attracted me much. I consider it wise to work under this kind of beliefs. I think I would be able to work with creative thinking with responsibility. There is much opportunity of creativity. I think I will not be judged by my educational background or which region I have come from or which religion or race I belong to but be judged by only performance. Mutual trust is another important factor which inspired me much to go for Bangladesh Honda limited. Mutual trust is a must for smooth work atmosphere, learning new things, gathering new experiences and sharing those experiences with different individuals working at different levels, coming out of my deficiency etc. I think I will avail myself of those benefits as well as opportunities mentioned above in this company rather than other competitive companies.

I am outstanding candidate for the post

My Previous job working as an Area sales Manager at Nitol Motors Ltd (TATA Division) provided me with the ideal experience for the position. For 11 years, I developed many of the skills required for this job. In particular, automobile sales skill and managerial experience make me an ideal candidate for this position. For example, at my last job, I managed a sales team of nine employees and four dealer and we had the top sales record of our company region and when I was a territory officer at Dhaka Tobacco Industries ltd, I managed forty four to fifty employees .I can bring my successes and experiences to this position.
