### OBJECTIVE

Looking for an engineering-related challenging job with the opportunity for career development. To enhance mastery in problem solving and gathering skill in a stable working environment to regulate difficulties effectively and efficiently.

### SKILLS

- Automobile Troubleshooting
- Critical Thinking and Problem Solving
- Sales Negotiation
- AutoCAD
- Solidwork
- Microsoft Office
- Mathematics and Physics

### CAREER

- I have done an internship at the BanglaCAT warehouse in the generator section. I have a Goal to develop my career in the technological sector and I would like to see myself as an executive engineer/ Manager within 5 years.

### EDUCATION

- **KHULA UNIVERSITY OF ENGINEERING TECHNOLOGY** 2021  
M.Sc in mechanical Engineering /Major: Automobile  
Ongoing
- **BANGLADESH ARMY UNIVERSITY OF SCIENCE AND TECHNOLOGY** 2020  
B.Sc. in Mechanical Engineering  
3.5 out of 4
- **FULBARI GOVERNMENT COLLEGE** 2015  
H.S.C  
4
- **NEW PHAKERHAT HIGH SCHOOL** 2013  
S.S.C  
5

### INTERESTS

- Gathering Information About automobile technology
- Travelling to Nature
- Businesses strategy of Leading Company

### EXPERIENCE

- **Bangla Trac Limited - BanglaCAT** June 2019 - July-2019  
Intern at Warehouse  
I developed the skill to troubleshoot and overhauling the IC engine and generator during my internship. I also learned how to how to organize the working schedule in an effective manner.

### PROJECTS

- **Design and Optimization of a VWAT**  
This was the first thesis and project of vertical axis wind turbine(VWAT) and we successfully increase the wind speed using an asymmetric vortex provider(AVP). We also generate electricity from the wind turbine.

### ADDITIONAL INFORMATION

I have reliable experience to troubleshoot heavy machinery, turbomachinery such as pump, compressor, GT, ST.  
I can profitably negotiate sales and I have gathered 8 years of practical sales experience.

## LANGUAGE

- Read: Bangla and English
- Write: Bangla and English
- Speak: Bangla, English and Hindi
