1. Why I am applying to Honda and why I think myself as an outstanding candidate for this job :

Honda is a world renowned company which is founded by one of the greatest inventors of all time Soichiro Honda. Honda has a long history of making superior and reliable products. Honda had taken lots of challenges that people thought impossible to be done but they have managed to accomplish the success. By doing so they have earned the trust as well as respect of the people all around the world. Still today many people of our country call motorcycle by "Honda". Honda is company that values the power of dreams. Honda understand what a visionary man can do. Soichiro Honda himself is a proof of that. I want to embrace the philosophy and culture of Honda with passion and hard work.

I read the job responsibilities of the post " Assistant - Warehouse " very carefully and think that I can take the challenges. I am very passionate about motorbikes and I will be happy to carry on the task assigned to me. I have very good knowledge about motorcycle and spare parts. I will put tremendous effort to maintain the harmony of the work spare parts department. I will ensure the smooth operation of the ERP system. I will analyze information and take effective measures to handle any kind of problems.

2. Whether I have driving licence or not

Yes. I do have valid driving licence.
