Education

MBA in MIS	2019 – Present	FBS, University of Dhaka	Enrolled
BSc in EEE	2014 – 2018	AUST	3.12
HSC	2013	M. M. City College, Khulna	5.00
SSC	2011	Khulna Zilla School	5.00

Thesis

• Study of Different Microstrip Patch Antenna for Biomedical Applications (2018)

Detection of breast cancer cells with microstrip patch antennas with a resonant frequency of 2.45 GHz for a safer and more accurate modality for cancer tissue screening. Worked on the theoretical part and obtained GPA 4.00 for an immense contribution.

Projects

• Vertical Smart Farming at Engenius (2018)

An idea of producing crops “n” times the land would produce with least manpower. Controlled the light and water supply with a code generated in Arduino UNO based on the luminous flux and ground humidity respectively. Planned to use solar power as the main supply.

• Vertical Smart Farming (Poster Presentation) at Poster Maestros.

• Water Level Indicator (2016)

An assignment of the “Measurement & Instrumentations” course. Used a ping sensor to determine the level of water in the tank. The Ping sensor measured distance using sonar. Used 5 LEDs to indicate the height of water in the tank.

Skills

Technical	Interpersonal
Microsoft Office	Communication
PSpice	Analytical Ability
Cadence Virtuoso	Team Work
MATLAB	Leadership
C++	Research & Development

Awards

- Board Scholarship (2011)
