Marital Status: Married.

## Career Summary

A professionally driven Mechanical Engineer with more than four years of work experience who will provide business development, optimum project engineering design, troubleshooting, fire hydrant design, infrastructure construction monitoring and inspection as well as project development plan review and approval.

## WORK EXPERIENCE

01/01/2015–21/12/2017

**Assistant Manager (Industrial)**

Ejab distribution Ltd. a sole distributor of **Cepsa Lubricant**, Spain.

- Take care of Diesel and Gas power plant services (such as lube oil testing report from origin (Spain), analysing the testing report and gives guidelines as a recommendation and maintain liaison with the origin.
- Investigate equipment failures and difficulties to diagnose faulty operation of powerplant and take necessary action.
- Develop and deploy quality training with proper materials / presentations for all sales and service personnel to provide customer better service and making awareness.
- Develop plan to maximize personnel productivity and making quarterly basis performance appraisal individually.

03/01/2014–31/12/2014

**Project Engineer (Mechanical)**

Aim tech Ltd. (Fire & safety Department)

- Design of Pump Hydration System, Friction loss and hydraulic calculation.
- Collaborate with electrical engineers and other personnel to identify, define, and solve departmental problems.
- Assist superior to execute and evaluate workers performance, motivating workers, Incentive planning, disciplinary matters, and training needs.
- Provide support to the project by maintaining a visible presence to the field performing site visits to the entire project and conduct formal weekly job site inspections.
- Making project Quotation, Client Handling and Estimate the project Materials.
- Directing and leading the core team of technical personnel.

## EDUCATION AND TRAINING

2018–2020

**MS in Mechanical Engineering**

King Fahd University of Petroleum and Minerals (KFUPM)

- Knowledge acquired:** Mechanical behaviour of material, Finite Element method for mechanical engineers Continuum Mechanics, Advance dynamics, Noise and Vibration control, Sustainable Design and development (LCA through Simapro software), Corrosion in Petrochemical Industry etc.
- Cgpa** = 3.375 in the score of 4.00

2009–2013

**B. Sc.in Mechanical Engineering**

Rajshahi University of Engineering and Technology (RUET)

- Knowledge acquired:** Automobile Engineering, Fluid mechanics (turbulent and laminar flows, diffusion, and transport equation etc.), Internal combustion engine (reason of detonation and minimization process, gas-turbine engine performance), thermodynamics (exergy, exergy balance), Power plant (types of powerplant, working procedure)
- Cgpa** = 3.43 in the score of 4.00
