Co-Curricular Activities

2019 - present

Director of Workshop Management at MIST Carrier Club

2020 - present

Executive Team Member at BOLD Bangladesh Organization for Learning and Development

2019 - 2020

Campus Ambassador of Youth School for Social Entrepreneurs -YSSE

Education

2017-2020

Military Institute of Science and Technology
Dept: Industrial and Production Engineering

2014 - 2016

Adamjee Cantonment College

2004 - 2014

BAF Shaheen School & College

Online Certificates

2020

Data Science (DataCamp)

2018

Python Programming (DataCamp)

2019

Six Sigma: Black Belt (LinkedIn Learning)

2019

Machine Learning Expert (DataCamp)

2020

Business Analysis (BABOK® Guide from Pluralsight)

Experience

2019 Nov -

Intern at Anwar Group of Industries

2019 Dec

2019 Aug -

Business Development Intern at YSSE

2019 Dec

Projects (GitHub)

➤ Customer Demand Forecasting Using Deep learning.

Compared the performance of different forecasting algorithms of the Walmart dataset. Used LSTM, CNN-LSTM, Bi-Directional-LSTM, GRU, Naïve approach, moving average, exponential smoothing, ARIMA, and SARIMA. Result is 34% more accurate forecasting by deep learning.

➤ Decision Support System for Data Insights.

Just connect to any data sources and start uncovering patterns, identifying trends and discovering insights for taking better decisions.

➤ E-commerce Delivery Model.

Optimization Modeling by using PuLP that can find the best path to delivery within minimum cost and time.

➤ COVID -19 vaccine tracker using Blockchain

Solution for Vaccine Integrity, Temperature Controlled Transportation, Syndicate, Bottleneck, Damaged Stock, Transparent Distribution and removing the costs of IT staffing, Dev Ops, and infrastructural overhead, security, and maintenance costs.
