- Optimized project efficiency by creating and implementing effective task management strategies.
- Expanded professional network through attending industry events and engaging in online communities.
- Negotiated contracts with both clients and vendors effectively, ensuring mutually-beneficial terms were agreed upon.
- Managed multiple projects simultaneously while maintaining a high level of attention to detail and organization.

EDUCATION

Uttara University - Holding 77 Beribadh Road, Dhaka 1230   *12/2023*
Bachelor of Science: Computer Science and Engineering

- **Thesis Statement:** Unsupervised Abstractive Bengali Text Summarization Using NLP
- **Completed Coursework:** Data Structures & Algorithms, Machine Learning, Database Management Systems, Web Development, Artificial Intelligence, Software Engineering
- **Leadership Experience:** Vice President, UU Programming Club, Sep 2022 to Aug 2023
- **Peer Instructor for Internet Programming Course (One Semester):** I was selected by my Internet Programming course lecturer the semester before last semester to teach my batchmates due to my proficiency in HTML, CSS, Bootstrap, React, PHP, and MySQL. I conducted two classes per week and the lecturer conducted one class.

Al Amin Academy School and College - Main City Rd, Chandpur 3600   *07/2018*
Higher Secondary Certificate (HSC): Science

- My passion for IT originated in college, where I developed a strong interest in technology and programming. This inspired me to pursue a degree in Computer Science.

Rampur Bazar Mojidia High School - West Larua, Faridganj, Chandpur   *05/2016*
Secondary School Certificate (SSC): Science

- In school, I served as the Patrol Leader for my school's Bangladesh Scouts team. I was responsible for leading my group in various activities, fostering teamwork, and representing my school at scouting events. This experience helped me develop leadership and organizational skills early on.

RECENT PROJECTS

- **Comprehensive Software for BAFFA (Bangladesh Freight Forwarders Association)**
  BAFFA benefited from this software by significantly improving operational efficiency, reducing manual workload, and enhancing data accuracy. The integrated system streamlined HR and payroll, arbitration, event management, leave management, asset and inventory management, and more, streamlining their organizational processes efficiently.
- **Ticketing System Software for iBAS**
  I developed a Ticket Management Software for iBAS Bangladesh Government, allowing government employees to create tickets for issues, which are resolved by support engineers. Admins have full visibility, monitoring the entire process to ensure efficient issue resolution.
- **Service Management Software for Aamra Technologies Ltd**
  I developed a Service Management Software featuring live engineer tracking with geolocation, and admin, engineer, customer, and product management. It streamlines workflows, enhances communication, and improves service efficiency by providing real-time updates and centralized management of service operations.
- **NextServe (The Ultimate queue management software for a bank)**
  NextServe is an advanced queue management software designed for banks to streamline customer flow and reduce wait times. It optimizes service efficiency by managing queues intelligently, ensuring a smoother customer experience while improving staff productivity and operational effectiveness within the banking environment.
- **Digital Advertising Software for Shahjalal Islami Bank PLC**
  A digital advertising software developed for Shahjalal Islami Bank PLC to efficiently streamline, manage, and optimize their marketing campaigns, enhancing customer engagement and boosting overall brand visibility.
